

Mini Crawlers

Used Mini Crawler Ontario Canada - We have designed various Mobile Crane Operation programs at our Crane Training Schools. These programs are recommended for the experienced operator who requires re-certification or certification, and for inexperienced operator who is seeking work in the business. Crane operator positions are high due to their high rates of pay. Operators of cranes are amongst the highest paid of whatever operator of heavy equipment. Our Crane Training Schools feature training and instruction for various mobile cranes. Course content comprises Wire Rope, Crane Set-up, Lift Planning, Load Dynamics, Signaling, Load Charts and Rigging. The Crane Training School program is best for riggers, supervisors and operators. Course materials comprise a manual and informative hand-outs. The safety manual that is illustrated features one hundred to two hundred fifty pages, depending on the course, of helpful and important material. Course materials comprise load exercises and load charts for the crane with which the trainee is working. Hands-On Safety Training will take up over half of the course curriculum. The practical training section is the most useful method to developing and improving personal skill levels. Only skilled journeyman crane instructors are selected to teach the courses. Our instructors have many years of practice in the industry. Optional testing mechanisms are offered for all of our courses. Students would usually write tests both prior to and following training. A test for skills is generally administered for programs that comprise H.O.S.T. People training would be tested and graded. We offer certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signalperson Certification and Training; Articulated Boom / Knuckleboom Cranes; Testing & Certification; and In-The-Seat Training. Industry standards of practice are changing as new trade requirements emerge. There are constant updates to regulations and legislation. Improvements in equipment and technology continue to be made. Industry data collection and analysis detect changing trends. Members maintain the advantage of managing their training programs and certifications. Mobile device alerts keep members abreast of workplace and personal safety news.
